DAIMLER GMS DAIMLER GEFAHRGUT- UND GEFAHRSTOFF MANAGEMENT SYSTEM

Daimler dangerous goods and hazardous substances management system

Short guide

Edition 3.0

STATUS: 14. January 2019

http://gms.aftersales.daimler.com

$\ensuremath{\mathbb{C}}$ eska Ingenieurgesellschaft mbH, Hamburg 2016

Neue Große Bergstraße 20 22767 Hamburg-Altona Tel.: 040/306817-0 Fax: 040/306817-99 Amtsgericht Hamburg HRB 93822 Geschäftsführer: Dipl.-Ing. Joachim Boenisch e-mail: service@eska.eu www.eska.eu

The Daimler hazardous goods and hazardous substances management system (GMS) is available from:

http://gms.aftersales.daimler.com/Default.aspx?UILang=en-EN

The Daimler dangerous goods and hazardous substances management system (GMS) offers you a tool to accomplish the requirements on dangerous goods and substances in a legal and comfortable way.

In addition to the Material Safety Data Sheets, the Daimler GMS publishes detailed information and provides applications.

The menu item "Product Search" takes you to the central element of the GMS. Now you are able to get information, material safety data sheets, operational instructions, packaging instructions and information on dangerous goods about all chemical spare parts of your concern. Some of these documents are also available for the foreign market.

Product search

The symbols and their meaning

The symbols next to each spare part are connected with a link to the documents. The depicted symbols have got the following meaning:

Symbol	Meaning	Explanation
í	Material Safety Data Sheet	Multilingual Material Safety Data Sheets or product
		data sheets
	Operational instructions	Adjustable operational instructions.
Ð	Packaging instructions	Shows multilingual packaging instructions (reverse
		logistics GLC).
\diamond	Dangerous goods	Direct link to create transport documents (road transport)
	No longer available in	Products which are no longer produced, but remainders
	the range of products	can still circulate
Ť	Only for professional users	These products are not intended for private persons.

Transport of dangerous goods

The Daimler GMS gives you access to a complete Transport of dangerous goods handling for road transport according to the international legislation (ADR). Please use the menu item "Transport of dangerous goods".

In addition to the part no. you also get first information about the appropriate UN-number for the transport.

Loading List

The following overview (loading list) shows all dangerous goods for transport.

Please enter the amount of packing units (packages) as well as the total gross weight of all packages of one position. After clicking "Refresh", you see the score of each position as well as the sum of all points?

It helps you to identify if the transport is below or over 1000 points regarding the ADR-System.

The following additional documents depending on different dispatch types can be added.

Document	Explanation
Info list	Short information e.g. labelling, packaging requirements and
	information about dispatched spares
Dangerous goods labels	The dangerous goods label to stick on the package.
Packaginginstruction	Extra packaging instructions for special spares (lithium battery,
	gas tanks) are available.
Transport document	Transport document in accordance with ADR, including
	information about the number of points.
LQ-Information	If the transport only includes LQ-goods, the total gross amount
	of LQ- packagings needs to communicate to the driver.
Instruction in writing	Accident Data Sheet for drivers.

Addresses

Required addresses can be entered into the system and are available for further orders. If one address is not required anymore, it can be deleted.
