Welcome to Daimler Truck hazard material and dangerous good management

At the Daimler Truck GMS you find only information about chemical products and replacement parts with "hazardous" and/or "dangerous goods" characteristics!

News

The news section displays 12 items in a 4x3 grid. Each item consists of a photograph and a caption below it. The captions are as follows:

- Update safety data sheets Mercedes-Benz Truck (2/13/2026)
- Update safety data sheets Mercedes-Benz Truck and OMNipius (2/12/2026)
- Update safety data sheets Mercedes-Benz Truck (12/16/2025)
- Update safety data sheets OMNipius (11/21/2025)
- Update safety data sheets Mercedes-Benz Truck and OMNipius (11/11/2025)
- Update safety data sheets OMNipius (10/31/2025)
- Update safety data sheets Mercedes-Benz Truck and OMNipius (10/14/2025)
- Update safety data sheets Mercedes-Benz Truck, OMNipius and Fuso (8/21/2025)
- Update safety data sheets Mercedes-Benz Truck (8/6/2025)
- (Caption for the 11th item, partially obscured)
- (Caption for the 12th item, partially obscured)

The menu item "Product Search" takes you to the central element of the GMS. Now you are able to get information, material safety data sheets, operational instructions, packaging instructions and information on dangerous goods about all chemical spare parts of your concern. Some of these documents are also available for the foreign market.

The symbols and their meaning

The symbols next to each spare part are connected with a link to the documents. The depicted symbols have got the following meaning:

Symbol	Meaning	Explanation
	Material Safety Data Sheet	Multilingual Material Safety Data Sheets or product data sheets
	Material Safety Data Sheet	MSDS according to DPD directive 1999/45/EG
	Material Safety Data Sheet/ Operational instructions	MSDS according to GHS directive (EU) 1272/2008 / Adjustable operational instructions
	Packaging instructions	Shows multilingual packaging instructions (reverse logistics GLC)
	Dangerous goods shipping handling	Direct link to create transport documents (road transport) and a list of information
	No longer available in the range of products	Products which are no longer produced, but remainders can still circulate
	Only for professional users	These products are not intended for private persons.
M	Meldepflichtiger Stoff/ Restricted explosives	s. Info sheet on Regulation (EU) 2019-1148 on explosives precursors
B	Beschränkter Stoff/ Reportable explosives	s. Info sheet on Regulation (EU) 2019-1148 on explosives precursors

Gefahrstoffe@Retail

Here you can find the safety data sheets from suppliers for chemical products that can only be ordered directly from the manufacturer. This is purely an information platform and not an ordering platform!

[New search](#)

In addition to the part no. you also get first information about the appropriate UN-number for the transport.

Loading List

The following overview (loading list) shows all dangerous goods for transport.

Please enter the amount of packing units (packages) as well as the total gross weight of all packages of one position. After clicking “Refresh”, you see the score of each position as well as the sum of all points?

It helps you to identify if the transport is below or over 1000 points regarding the ADR-System
